Summary

Senior FullStack Web Developer
I am a senior fullstack web developer with 6 years of experience in developing web, mobile and web3 applications. I specialize in creating software solutions across diverse range of industries including **Ecommerce, healthcare, real estate and social media.**

WORK EXPERIENCE

Newwave Solutions   Jan 2022 - Sep 2023
FullStack Developer

- Built animation-focused websites using React JS, GSAP, and the Locomotive Scroll library, seamlessly integrated with Concrete CMS, resulting in 100% easy content management.
- I made the web pages load more than 50% faster. Performance and speed were key points of the

TPS Software   May 2018 - Jan 2022
UI & Frontend Developer

- Re-designed over 85 unique pages for B2B, CRM, and corporate websites in Figma.
- Collaborated closely with two backend developers and created the frontend of the entire project.
- Made sure the pages loaded super fast, scoring over 90 in page speed.

Enlab Software Company   Apr 2017 - May 2018
Marketing Manager & Specialist

- Developed and maintained functional pages for web applications.
- Worked with a .NET based custom CMS.
